

THE SECOND WORLD WAR

Juan S.S.

The beginning:

The 1 of september of 1939 the germans invaded Poland.England and France declared the war to Germany because they thought they were going to be invaded.Germany started to encroach Norway and some countries of the south of Europe.

About the beginning...

The Germans started the war because in the first world war they were defeated by the French and they were submitted to pay 70 million euros and the French caught a piece of the front of the war.

The Germans

They invented the “Blitzkrieg” which was like “fast war” because they had fast planes and tanks, but they didn’t realize it was going to be a large war with large battles. Their best war machines were the “Messersmicht 109” (plane) and the “Panzer VI” (tank).

The Britains

They created a good plane it was the “Spitfire”

The Americans

They created a very good plane called “Mustang PD-51” which escorted squadrons of bombers through Germany.

The war:

The Germans attacked France before they could react and the beach of Dunkerque was the last territory of the French which later was invaded and conquered

Meanwhile...

Japan started to attack the United States and the Americans recruited the 90% of the men and they created a poster to animate women to work.

Back in Europe

England was making a plan to reconquer France, it was called: D Day H Hour because the day and the hour were kept in secret. The operation was a success and 3 million soldiers were saved.

On the other side of the world...

On 2 of september 1945 the war ended because the americans created the atomic bomb and launched two bombs into the cities of Hiroshima and Nagashaki and that year Adolf Hitler got suicided when he was in a bunker.

The Holocaust

Hitler made a plan to kill as many Jews as possible. Almost 6 million Jews were killed during the war, in the concentration camps and in the gas chambers

After the war...

Some years later French and Germany were politically friends again and they decided to create the European Union. The Americans gave money to Europe to restore their countries through the Marshall Plan.

There were more than 60 million victims in the II World War

Thank you for listening
